READING THE KPIs

Net = gross sales − credit value.
AOV uses positive sales invoices.
Credits include cancellations and adjustments;
they are not a physical return rate.

GROSS SALES WITH CUSTOMER ID
84.94%

TRANSFORMATION RULES

Type columns → trim / clean text → flag invalid lines
→ exclude invalids → remove exact duplicate records
→ keep complete months → derive values and dimensions.

ANALYST NOTES

Unknown customers stay in sales.
Credit notes stay negative.
Exact duplicates are assumed repeats.
No costs → no profit KPI.
